

Satellite Dish Policy

This policy will enable members to have the freedom to watch the diverse types of programming that Satellite TV provides. The Co-op will allow Satellite Dishes to be installed on the co-op property provided they meet the following criteria:

The Satellite dishes are not more than three (3) feet across.

That the Dishes be installed on the brick walls of the housing units and not on the roofs or wood structures.

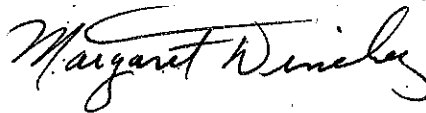

That the member acquire any necessary permits at their expense.

That the Dishes and the installation meet all City requirements.

That the member submit a written request to the board outlining the type and size of the Satellite Dish equipment, the location where it will be mounted and a copy of any permits that are required. The member must receive permission in writing from the Board prior to installing the Dish.

When the Satellite Dish is removed from co-op property the area where the dish was mounted must be repaired and returned to the original condition prior to installation.

Approved by the Board of Directors Village Glen Co-operative Homes Inc. July 18, 2000
